

ACTIVITY 9: DRAWING OF REAL FLOWER OR PLANT

Age: 6yrs and above

Materials: Real flowers and plants near you.

Points to keep in mind:

1. If possible, find a partner who can work with you, a sibling or a family member.
2. Ask them to do the same activity, but individually.
3. Look around your house and see if there are flowers or plants you can observe and draw.
4. Pick the flower or plant and observe all the shapes, lines and small details for few minutes.
5. Then by looking at the flower, start drawing from the biggest part of the follower or plant.
6. Do remember to refer to the flower or plant every step of the way and draw it down as you look at it.

Points to consider with your partner

1. After you both are done, show your drawings with each other.
2. If there are any details you would like the other person to add, share with each other in a positive manner and complete your drawing.
