

## ACTIVITY 12: SKETCHING IDEAS FOR MY DREAM HOME

**Age:** 6yrs and above

**Materials:** Plain paper and a pencil

### Points to keep in mind:

1. If possible, find a partner who can work with you, a sibling or a family member.
2. Work individually to create your own sketches.
3. When you grow up and build your dream home, think about what would that dream house look like?
4. Think about what kind of rooms will there be? Will there be special features in the house? Are there outdoor spaces? What shape will your house be? How big and tall is it going to be? What kind of materials will it be built of?
5. Now, make a simple sketch of this dream house. Use lines and shapes to draw your ideas.
6. You can also write some words to the sketch to describe what will be in your future dream home.
7. When you are done with one idea, flip the paper, and now sketch another new idea for a dream home. This time, make sure it is very different from your first idea.
8. After you are done with both sketches, if you are working with a partner, share with each other your sketches and describe your ideas. Share what you like about your partner's idea and also

share any suggestions. Take a few minutes to make any additions to your sketches based on the suggestions received.
