

A good teacher can inspire hope, ignite imagination, and instil the love for learning. Read on for a teacher's view of the Art activities which are engaging so many creative minds in schools. Sharing the words of Kumaraswamy, Headmaster of GHPS Thattekere,

“Children at our school are showing a good level of interest in doing the art activities and using the Art Kits. Whenever possible, I try to interact with students, asking them about their activities. The glint of excitement in their eyes as they explain their work to me fills me with immense happiness.

I always see the children do something new and independently find solutions to problems. This helps inculcate various 21st century life skills within them, which is a particularly important criteria of growth among children.

I am very thankful to ArtSparks Foundation for being there for our children and helping them build and mould themselves according to the current times.”
