

Ms. Sudha, HM  
GHPS Yellukunte

Since the time ArtSparks Foundation started their remote activities with students on WhatsApp I have been a part of that group. I have been observing the efforts put by our facilitators, Manjula and Monisha, throughout the year. The work that the children were producing is a direct result of the persistence they have shown in ensuring students are actively engaged in this process. Although they work with ArtSparks Foundation on a part time capacity they work just as hard as our schoolteachers. They are constantly coming to school, calling students and parents, and conducting the program even through a tough year like this.
