

Muni Chinnappa, SDMC President,
GHPS Kadirenahalli

Every year ArtSparks Foundation holds a space for exhibiting students' work within the Creative Learning Labs. Exhibitions provide a platform for the students and the facilitators to open their yearlong efforts to the public. The students get an opportunity to speak about the work that they have done, through this they develop both their communication skills as well as confidence. This year, even though the activities were being conducted remotely, consistent engagement with students made it possible to conduct exhibitions in a few of our schools.

During our exhibition, this year we had the SDMC president of GHPS Kadirenahalli, Mr. Muni Chinnappa, visit the schools' Creative Learning Lab. After listening and interacting with the students here is what he had to say - This school has had a legendary history, some of the alumni are now in good positions, some of our students have had the opportunity to meet Dr.APJ Abdul Kalam. Over the years it felt like that had faded away but now looking at these artworks and the children it feels like we are back. The confidence with which students are speaking is really amazing to watch.
