

ACTIVITY 7: CREATING FAVOURITE ANIMAL WITH FOUND MATERIALS IN 3D

Age: 6yrs and above

Materials: Pots, pans, utensils, bottles, bottle caps, cardboard box, bags, old books, newspapers, dough, etc.

Step 1: Look around your house and find any material with which you can create your favorite animal in 3D.

Points to keep in mind:

1. If possible, find a partner who can work with you, a sibling or a family member.
2. Ask them to do the same activity, but individually.
3. Take a close look at the photo of your favorite animal and observe all parts of their body as well as the small details.
4. Look around your house and see if there are materials you can find which can be used to create your favorite animal. You can make your animal stand on the floor by stacking your objects or lean it against the wall to support it.
5. Find at least 5 different materials which you could use to create 3D animal.

6. Start with the biggest part of their body, arrange materials to create the shape of the body.
7. Then move on to the smaller details like their legs, face, tail, etc. and arrange more materials to make it look like your favorite animal.

Points to consider with your partner

1. After you both are done, show to each other what you have created.
2. If there are any missing details you would like them to add, share with each other in a positive manner and complete your favorite animal with the help of the feedback received.
